SECTION OFFICER

ANNEUXRE - I

STATEMENT SHOWING THE ARTICLE OF CHRGES FRAMED AGAINST SRI K.BULLIRAJU, FORMERLY Executive Engineer, RWS VIJAYAWADA&S,NOW RETD.

Charge:

That Sri, **K.Bulliraju , formerly Executive Engineer** RWS, Vijayawada now retd from service on 31.5.2008 failed to conduct detailed soil investigation and field survey of the existing M.I.tank as SS tank before commencement of the work "execution of Accelerated Urban Water Supply programme (AUWSP) to Bapulapadu in Krishna district and executed the work which resulted in seepage of SS tank causing wasteful expenditure to the Government exchequer.

Basis:

Sri K.BulliRaju worked as Executive Engineer, RWS (P) Vijayawada w.e.f.4.12.2007 to 31.5.2008. During his incumbency he was the in charge of the work "execution of Accelerated Urban Water Supply Programme (AUSWP) to Bapulapadu " in Krishna district and executed the const. of SS tank certain items such as formation of bund portion, earth work gravel packing,CC lining etc. As per the Govt.memo.No.21508/Vig.II/A2/2011-2 PR&RD, VIG.III Deptt dt.13.12.2011 and Alert. Note. No. 108 (1016/ V&E/ E2 /10) GA(V&E)Dept dt.25.8.2011, and report of the C.E, Vig &Q.C, Lr.AEE2/786/Bapulapadu/Krishna/V&Q.C/RWSS, dt.23.2.2012, it is observed that he has failed to conduct detailed soil investigation and filed survey of the existing MI tank as summer storage tank, and also failed to conduct tests collecting undisturbed soil samples in accordance with the procedures laid down in I.S:2132-1972 and tested in the laboratory for the suitability and classification of the soils, and relied on the test results of the disturbed samples collected from the site without doing any in-situ permeability test in accordance with IS : 55 29 (PartI&II). The swell factor was not examined. These technical lapses led to non inclusion of provision black Cotton carpet in the estimate which in turn led to seepage of the tank. Further there are longitudinal cracks in the entire bund due to utilizing the BC soils available in the bed for formation of the bund which possess a characteristic of swelling and shrinkage and also due to insufficient consolidation to Proctor's density. Due to the reason of seepage of the SS tank, the purpose of supply of drinking water to Bapulapadu village is not served and the entire scheme has become wasteful. It is evident that he failed to discharge his legitimate duties and he had violated the rule (3) of A.P. Civil Services (Conduct) Rules, 1964.

Hence the charge.
